NFPA 220. Choose another Code/Standard . Receive Email Alerts . View in CodeFinder™ Code/Standard # and/or key word: Close. Search Results Close . Standard on Types of Building Construction. This standard promotes protection from fire and its associated hazards by defining types of building construction based on the combustibility and the fire resistance rating of their structural elements ...

NFPA 220: Standard on Types of Building Construction

Assuming compliance with the Life Safety Code is required, the construction type in accordance with NFPA 220 as referenced by the Code should be noted. Table 4.1.1 from NFPA 220 does not address building area or occupant load, only building height. The calculated occupant load is not just used for determining egress capacity. The calculated occupant load is also used where occupant load ...
